

Conduit Seals

Applications

Orenco's Conduit Seal Kits create a watertight, gastight seal between a conduit and a splice box that prevents the passage of liquids, vapors, or flames.

Conduit seal kit shown without sealant and fiber filler.

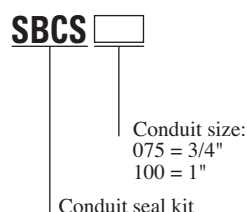

General

Orenco's Conduit Seal Kits are available for 3/4-in. and 1-in. conduit. Conduit Seal Kits include sealant, fiber filler, and instructions. UL listed.
